

Don't forget to double check before you put out your **burnable garbage!**

- ☑ Is today the right day?
- ☑ Is it before 8am?
- ☑ Have you written your full name on the garbage bag?
- ☑ Have plastic and paper products been separated so they can be recycled?
- ☑ Have all food scraps been properly strained of water?

Garbage Disposal Rules

① Please dispose of garbage at the correct time and place

Please make sure your items are placed at each garbage or collection station before 8 am.

② Please follow the set instructions for disposal

Please make sure that you have followed all instructions, including writing your name on the bag.

③ Please use garbage and collection stations in your local area

Each station is maintained by the local community. Even if another station is in a more convenient area, please be aware that you may be inconveniencing other neighborhoods by using their station.

④ Please try to avoid disposing of large amounts of garbage at one time

Having a lot of garbage to dispose of can be unavoidable, especially when moving out, but try to plan ahead to avoid inconveniencing others who also need to use the station. We recommend disposing of garbage in segments, or taking your garbage directly to Eco Park Samukawa, the waste management facility in Iiyama City.

Caution

- Disposal dates and frequency vary depending on the season and public holidays. Please refer to your local Garbage and Recycling Calendar for specific dates.
- Collection times may vary depending on weather and traffic conditions.
- Items disposed of incorrectly or on the incorrect day will not be collected. If items have been disposed of incorrectly, they will be returned with a red sticker attached explaining why. Please read this thoroughly to ensure you dispose of your items correctly next time. If you do not understand how to dispose of your garbage, please refer to this guide, or contact Iiyama City Hall (contact information below).
- The locations of each area's recycle stations are written on the Garbage and Recycling Calendar.
- For more information on garbage disposal and items not listed above, please refer to information on the following pages.

Iiyama City Hall Consumer and Environmental Protection Division Tel: 62-3111 extension 191/192

Please dispose of your business related garbage at the correct station !

According to Japanese law, business related garbage (from shops and other workplaces) must be disposed of by the business owner.

Accordingly, business related garbage generally cannot be disposed of at community garbage stations (This does not include small businesses with prior council approval).

If you are a business owner, please make sure to dispose of your garbage correctly.

For more information on business related garbage disposal, please contact Iiyama City Hall.

Burnable Garbage

- Frequency : Twice a week
- Location : Garbage Station

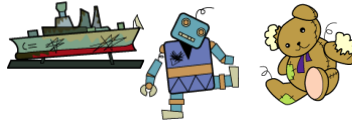

1 Examples of Burnable Garbage

●Paper Waste

※Other types of paper waste can be disposed of at the Paper Collection Station

●Toys and Stuffed Animals

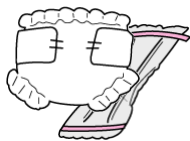

※ Items containing metal are Non-burnable garbage

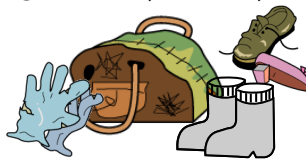

●Food Scraps

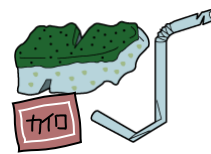

●Paper Diapers

●Leather, Rubber, and Shoes

●Other Garbage

2 Disposal Method

Please only use Iiyama City's specified Burnable Garbage Bags (semi-translucent polyethylene bag with orange writing) and **write your full name** in the space provided.

- Please dry out food scraps and wrap them in paper before putting them in the Burnable Garbage Bag.
- Plastic containers and trays are considered Plastic Packaging, and should not go in the burnable garbage.
- Please wrap chopsticks, skewers, and other sharp objects in paper so as not to pierce the bag.
- Please do not put cans, metal, plastic bottles, or any other non-burnable or recyclables in the burnable garbage bag.
- Please take care of your own compost from your garden.

3 Other

• Items too large to fit in the garbage bag should be put out on Non-Burnable day

Large plastic items such as buckets, snow shovels, and watering cans should be put out on non-burnable garbage day. Please write your name directly on the item. However, please be aware that items considered oversized garbage (Page 11) cannot be disposed of at a garbage station.

• Separate recyclable items out so that they can be recycled!

Although they can also be discarded in Burnable Garbage, many items are also recyclable. Where ever possible, food trays and wrapping should be recycled as Plastic Packaging, paper wrappers and tissue boxes should be recycled as paper, and old clothing should also be recycled.

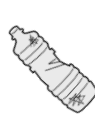

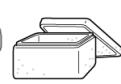

Plastic Packaging

- Frequency : Once a week
- Location : Garbage Station

1 Examples of Plastic Packaging

Plastic Packaging refers to containers or packaging made of plastic that have held or been wrapped around a product, and includes the following items.

Type	Example
Boxes (Containers)	Convenience store meal boxes, egg cartons, tofu containers, etc.   
Bottle	Cooking oil, sauce, or dressing bottles, detergent bottles, bathroom and shower products (please clean beforehand)     
Cups	Cup ramen, yoghurt and dessert cups, etc.   
Trays	Food tray (Fish, meat tray), partition sections from snack trays of rice crackers, etc.  
Tubes	Mayonnaise or ketchup tubes, etc. (please make sure the tubes are empty)
Bags	Candy wrappers, bread bags, plastic shopping bags, etc.
Other	Bottle lids and labels, clean Styrofoam, plastic wrapping from candy boxes, cigarettes, cup ramen, meat, etc.    

Items specified as Plastic Packaging will often have this symbol. However, items listed above without this symbol are still considered Plastic Packaging.

2 Disposal Method

① Please remove all not plastic parts from each item

- Paper labels and other difficult to remove parts may be left on.

② Please gently rinse items with water and wipe off any residue

- While most items can be gently rinsed, please ensure that any oil is completely removed.

③ Please label the Burnable bag and discard at the Garbage Station

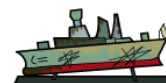

- Please use the Burnable garbage bag and write プラ or プ (for plastic) next to your name.

※For large Styrofoam that couldn't fit into the garbage bag, please break into smaller pieces (about the size of the bag), tie them up with string and label with your name.

3 Items that are not considered Plastic Packaging

- Items that cannot be washed, or remain dirty after washing
- Plastic items and containers that are not packaging

(Eg.) Toys, buckets, and other plastic goods, as well as dry cleaning bags and CD cases are not considered to be packaging.

Non-Burnable

- Frequency : Twice a month
- Location : Garbage Station

1 Examples of Non-Burnable Garbage

●Metal Items

●Empty Cans

●Glass and Mirrors

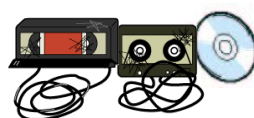

※Please recycle unbroken glass jars

●Radios, hair dryers, and Other small electronics

●Videos, cassette tapes, CDs, DVDs

●Wire and Umbrellas

●Ceramic Items

※Televisions, refrigerators, washing machines, clothes dryers, air conditioners, etc. cannot be collected by the City in accordance with the Home Appliance Recycling Act. Please dispose of these items through the retailer you purchased it from, an authorized waste collection company, or by taking them to a collection center (the closest is in Nagano City).

2 Disposal Method

Please only use Iiyama City's specified Burnable Garbage Bags (translucent polyethylene bag with blue writing) and **write your full name** in the space provided.

- Non-Burnable Garbage does not include wooden, polyethylene, or plastic items, or shoes.
- Please make sure that cans are empty before disposal.
- Before disposing of spray cans, please **ensure that the can is empty.** **Then carefully puncture** it.

Please be sure to make a hole in the spray can

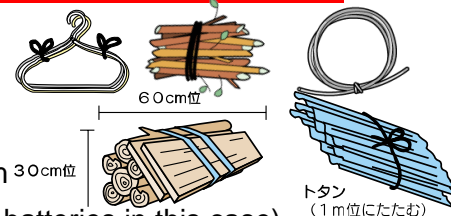

- Window glass, sickles, lighters, knives and other large, dangerous, or sharp items should be placed in a cardboard box labelled with **危険物** (**dangerous goods**) and **your name** (Please empty lighter fluid for safety).

Put dangerous items in a box!

- Wire, electrical cable, and coat hangers should be **tied with string, labelled with your name** and disposed of without a garbage bag.

- Lumber and wood should be made into bundles of 60cm long and 30cm high, and **disposed of gradually to avoid large piles.**

- Metal items that don't fit in a garbage bag but are shorter than 50cm long can be labelled and disposed of without a bag (please remove batteries in this case).

- Please put cassette and video tapes in a separate Non-Burnable garbage bag (or box depending on the amount) labelled 'Cassette/Video Tapes' and write your full name.

- If you have a large amount of glass or ceramics, place them in a box labelled 'Ceramics' instead of a garbage bag and write your full name.

Hazardous

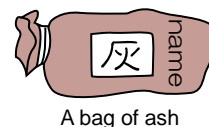

- Frequency : Twice a month (Non-Burnable day)
- Location : Garbage Station

1 Examples of hazardous Garbage and disposal methods

The following items contain mercury or other toxic substances, and cannot be sent to a landfill, so please ensure that it is properly separated from other garbage.

●Ash

Charcoal and briquettes, etc. should be crushed into ash and disposed of on non-burnable day in a durable bag labelled 灰 (ash) and your name.

●Batteries etc.

Batteries should be placed in a separate garbage bag labelled 電池 (batteries) and your full name, and disposed of on non-burnable day. This includes nickel-cadmium and lithium batteries, and coin and button cells.

●Fluorescent Lights and Mercury based Thermometers

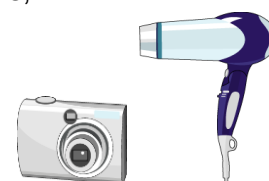

Please place lights in their original boxes without breaking them, write your name on the box, and dispose of on non-burnable day (or if you do not have the box, please wrap with newspaper). Broken lights should be placed in a durable box marked with your name rather than in a bag.

Disposal of Small Household Appliances

Since 2013, Iiyama City has started collecting small household appliances. Small appliances are being collected as part of a national drive to gather and reuse rare metals found in appliances, in line with the Home Appliance Recycling Act. Please help do your part to reduce waste by participating in the drive and recycle these appliances.

- Collection date: Recyclables Collection Weekend (twice a year)
- Location: Parking lot near Iiyama City Hall
- Items Collected: All home appliances (exclusions below)
- Collection fee: None
- Items That Will Not Be Collected
 - Appliances that you are obligated by law to recycle (televisions, refrigerators, washing machines and air conditioners).
 - Appliances used in a business.
 - Wooden or fabric parts attached to the appliances.
 - Batteries or fuel used in appliances.

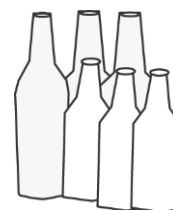

Glass Bottles

- Frequency : Twice a month (once a month Jan-Mar)
- Location : Glass and Plastic Bottle Collection Station

1 Examples of Glass Bottles and Jars

Glass bottles are classified as 'containers made of glass which have been used to contain food, drink, or cosmetics.

Collected glass bottles will be recycled, so please dispose of them properly in an environmentally friendly manner.

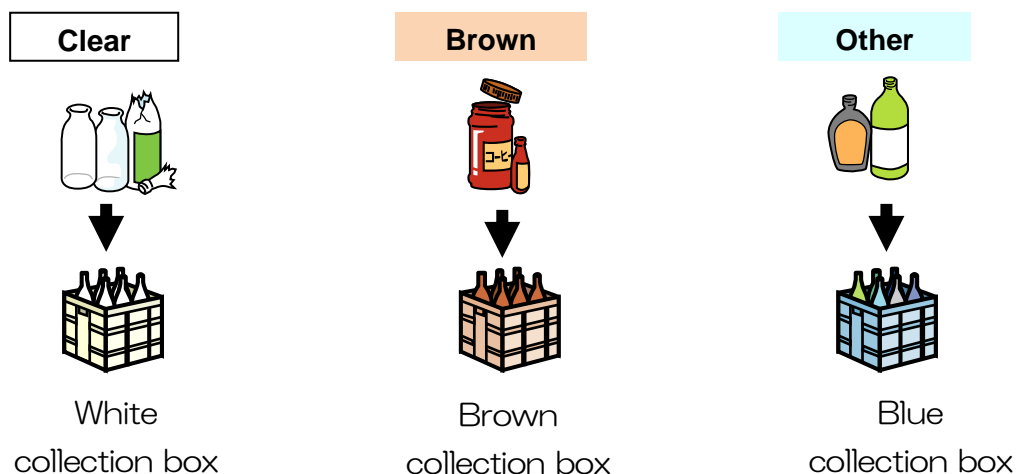

2 Disposal Method

① Please remove lids and other non-glass items and rinse.

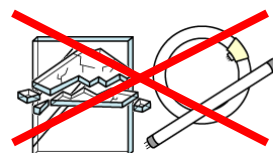

- ※Paper labels do not need to be removed, but please remove plastic labels if they can be easily removed.
- ※Broken bottles can still be collected

② Glass is sorted into three categories at the collection station (clear/white, brown/red, and other colors), so please place your items in the correct collection box.

3 Items that cannot be disposed of as glass

The following items are not considered glass bottles:

Types of Items		How to dispose of
Returnable Bottles	Brown 1.8 liter beer, mirin, and sake bottles (other colors are okay).	Please return to the shop the bottle was purchased from.
Dirty items	Bottles that still contain oil etc.	Non-burnable garbage
Glass-based products	Boards, plates, cups, glass tableware, lightbulbs, etc.	Non-burnable garbage

PET Bottles

• Frequency : Twice a month (once a month Jan-Mar)
• Location : Glass and Plastic Bottle Collection Station

1 Examples of Plastic PET Bottles

Plastic PET Bottles include items listed below and generally have (PET-1) written on the label or side of the bottle.

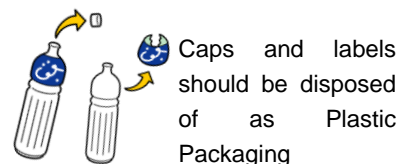

Beverages	Bottles that contained carbonated drinks, fruit juice, oolong tea, black tea, coffee, sports drink, mineral water, Japanese tea, barley tea, etc.
Alcohol	Bottles that contained sake, shochu, whiskey, mirin (cooking sake), etc.
Soy sauce	Soy sauce bottles
Condiments	Soy sauce and mirin based products, vinegar, seasoning, dressings, etc.

Items that do not have (PET-1) written on them should be disposed of as Plastic Packaging.

2 Disposal Method

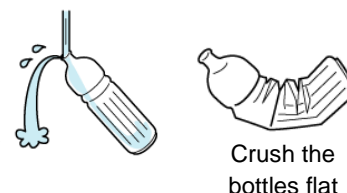

① Remove lid and labels from bottles

- Difficult to remove parts such as tamper-evident bands, inner plugs in soy sauce bottles, and handles may be left on.

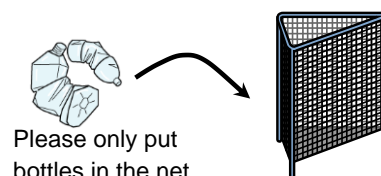

② Empty and clean bottles

- Please crush bottles where possible.
Please try to crush the bottle flat to increase collection capacity.
- Please dispose of bottles that have been cut, painted, or otherwise used for handicrafts in the Burnable Garbage.

③ Place in the collection net at the collection station

- Please only place bottles in the net. Any bags used to transport bottles should be taken home.

How to dispose of Fire Extinguishers

Used or expired fire extinguishers cannot be disposed of at garbage collection stations or Eco Park Samukawa. Please refer to the following instructions.

● Exchange used extinguisher when you buy a replacement

Some shops and fire brigades offer exchange services and will take old fire extinguishers.

● Use the fire extinguisher recycle system

Some fire extinguisher manufacturers offer recycling services. If so, please bring to a collection counter (Iiyama City does not have one), or send to a designated location. Please visit the website of Fire Extinguisher Recycle Promotion Center for more details.

Paper

- Frequency : Once a month
- Location : Paper collection Station

1 Examples of Paper and Disposal Method

Newspapers and other types of recyclable paper are collected by bundling like items together. Paper can be heavy, so please make sure not to dispose of it as burnable garbage.

Paper is sorted into 5 categories. Please dispose of your paper waste accordingly.

① Newspapers

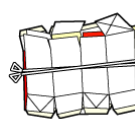

② Magazines

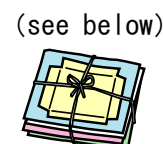

③ Cardboard

④ Paper cartons

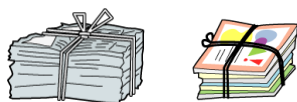

⑤ Other papers

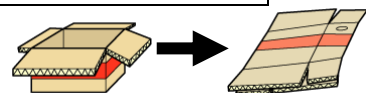

(see below)

Please separate paper into newspapers, magazines, cardboard, cartons, and tie them into individual bundles with string. As the bundles can become heavy, do not make them more than 20cm high. Please put "Other Paper" into a paper bag and secure with string.

Separate newspapers and flyers!

Flatten Cardboard boxes

Please rinse and cut open cartons

Examples of other types of paper that can be discarded

The following types of papers can be bundled together with string and paper of a similar size. It may be placed inside a paper bag and discarded if it has been secured with string.

Paper boxes (medicine, cosmetics, tissue, cling wrap, food, shoe boxes), cardboard yoghurt trays, paper bags (dessert, medicine, chopstick bags), wrapping paper, flyers, envelopes, advertisements, printer paper, instruction manuals, memo paper, toilet paper roll.

2 Items that cannot be discarded

The following items cannot be recycled even though they are classified as paper. Please discard as Burnable Garbage.

Cartons with aluminum on the inside (such as alcohol cartons) are considered as Burnable **Garbage**.

Small paper	Paper smaller than the size of a business card, shredded paper
Coated paper	Wax-coated paper, waterproof paper (paper cups, plates, paper instant noodle cups, paper yoghurt containers, wax paper, etc.)
Soiled paper	Paper coated in oil or dirt, wet paper, soap or detergent containers, paper with an odor such as incense boxes.
Other	Carbon paper, braille, thermal paper (fax machine paper, receipts), photographs, photosensitive paper (whiteprints), postcard bills, paper that has plastic film or aluminum, gold leaf paper, etc.

Clothing

(Once in May and October at the Paper Collection Station)

1 Examples of Clothing

Clothing is recycled and delivered to second hand stores in Japan and overseas for reuse, or to be turned into rag cloths.

Items that can be disposed of	Items that cannot be disposed of
<ul style="list-style-type: none"> • Summer and winter clothes (including cotton and synthetic fabrics) • Formalwear, leatherwear • Japanese clothing (kimono, obi) • Towels, cloth/linen/fabric 	<ul style="list-style-type: none"> • Underwear, socks, and stockings • Nylon clothing, clothing with down or padding (skiwear, down jackets, raincoat) • Neck ties, scarves, and hats • rugs, carpets, pillows, and bedding

※These items should be disposed as Burnable Garbage

2 Disposal Method

(1) Dispose of clothing at the Paper Collection Station (In May and October)

- Twice a year, once in May and once in October, clothing can be disposed of at your local Paper Collection Station. Specific dates are listed on the Garbage and Recycling Calendar.
- Please place clothing that has been washed or dry cleaned in a clear plastic bag and put out before 8am on the collection date.

(2) Dispose of clothing at Iiyama City Hall (Once a month)

- Once a month, Iiyama City Hall holds a special collection for clothing and cooking oil.
- Please place clothing that has been washed or dry cleaned in a clear plastic bag and dispose of between 9am and 11am on the fourth Friday of every month.

3 Caution

◎Please make sure that clothing has been washed and dried before disposal.

◎Please do not remove buttons etc.

◎Clothing that has been rained on or dirtied with mud is difficult to recycle, so please ensure that the plastic bag is properly tied so that dust and water cannot get in.

Cooking Oil

(Collected by the City on the fourth Friday of every month)

1 Examples of Cooking Oil

Cooking oil is oil that has been used by households. It does not include lard, oil contaminated with water, engine oil, or other oils not used for cooking.

2 Disposal Method

- Please dispose of cooking oil between 9am and 11am on the fourth Friday of every month, at the garage in front of the Iiyama Katsuyuki center by the City Hall.
- Place oil into an empty oil container for transportation (only oil will be collected)

Please don't pour your oil down the drain!

Oversized Garbage

• Location : Please bring to the Samukawa Eco Park.

1 Examples of Oversized Garbage

Oversized garbage includes items that are too large to be discarded at regular collection stations, and must be taken to the Eco Park to be disposed of at a cost.

2 Disposal Method

As these items are not collected by the City, they must be taken to the Samukawa Eco Park either by individuals or through an authorized private waste collection company (listed right). Please confirm cost of collection directly with the companies.

※It is illegal for unauthorized companies or individuals to charge a fee to transport items to the Eco Park.
